Tutor at 6 weeks course “*Approach to sperimental Microsurgery for*

registrar level trainee at “Federico II” University of Naples.

Centro di Biotecnologie A.O.R.N.” Antonio Cardarelli” – Padiglione X

CLINICAL EXPERIENCE

My first surgical experience has been in Spain, I worked as Junior honorary clinical fellow the Plastic Surgery Department of the University “La Laguna”, Tenerife. Being the only one fellow I had a great opportunity to learn basic surgery skills and develop passion for this speciality. I received my basic clinical experience following a one year and half year of pre-degree training period attending as an internal Medical Student in the Plastic and Reconstructive Surgery Department , University Federico II of Naples, where my clinical knowledge improved. After completing my medical degree in 2010, I developed an early interest for Microsurgery assisting for Microsurgical reconstructions with Prof. Fabrizio Schonauer, which has been my Italian tutor.

Since I got my training number in Plastic Surgery, thanks to the Rota of my Italian training, I had the possibility to work in General surgery and Emergency surgery Departments for more than 1 year at registrar level. During my training programme, I’ve been accepted for a 15 months honorary microsurgical fellowship at the Plastic Surgery Department at the Norfolk and Norwich University hospital under the supervision of Mr. Figus, Consultant Plastic Surgeon. It has been mainly here that I developed my skills in Microsurgery and Breast Reconstruction and Hand Surgery working also with the other consultants with a special interest in microsurgical breast reconstruction : Mr Richard Haywood, Miss Rozina Ali and Miss Eleine Sassoon. After 6 months of my period in Norwich I was offered a contract as Locum Registrar in the same Department for 9 months. This gave me the opportunity to gain more exposure to head and neck cases and trauma hand injuries.

SEMINARS

- June 2010
Seminar ECM : Malignant Melanoma and Immunotherapy
- Sept 2013
Seminar ECM : V Oncology Continuous Formation , The multidisciplinary team in Oncology
- 24-26 April 2014

17th February 2016

TO WHOM IT MAY CONCERN

Reference: Sergio Razzano

Sergio has very kindly asked me to be his referee. Sergio worked in our department for over a year from September 2014. He originally came over as an Honorary Registrar and Clinical Fellow and in the last 6 months we have appointed him as a Locum Registrar.

It has been a great privilege to have Sergio working within our department. He has proven to be extremely conscientious, extremely hard working and it has been a pleasure to see him develop his surgical skills and clinical decision making, during the time he has been with us.

Sergio has a very good enquiring surgical mind, which can analyse a problem, think around a problem and come up with potential solutions. Over the last year, he has developed his surgical skills to match his enquiring mind and can frequently solve the problem surgically as well.

I have no concerns recommending Sergio for further microsurgical fellowship posts. I would appoint him in Norwich if we had a post coming up ourselves.

You will enjoy having Sergio working with you, and both your department and he will benefit.

I wish Sergio all the best in his future career and I look forward to following, what I expect to be, a successful career as a Plastic Surgeon.

Yours sincerely

Richard Haywood MBBS FRCS Plast
Consultant Plastic and Reconstructive Surgeon
